Celebrates 96th Birthday

Mrs. Nathalie Coleman Robertson, (T. N.), celebrated her ninety-sixth birthday on February 28th in the home of her daughter and son-in-law, Mr. and Mrs. Percy Thompson.

A dinner which included sixteen of Mrs. Robertson's family was enjoyed and in the afternoon from two until four o'clock, approximately seventy-five friends and relatives called to enjoy birthday cake and punch and to extend greetings.

Mrs. Robertson received many gifts and cards; among the cards was one from President and Mrs. Jimmy Carter. She has already received in excess of one hundred cards.

Although Mr. and Mrs. Robertson had five children, only one is living; she has eight grandchildren and sixteen great grandchildren.

Mrs. Robertson expressed her deep appreciation to her many friends and relatives who, in some way or other, made this a very special occasion. We wish for her many more!

ASCS Today

By Tom Conrad

Flue-Cured Tobacco Program Changes - There are some new provisions in the flue-cured tobacco program that all growers will want to know and to consider. Under the provisions, growers may plant up to 120 percent of their allotment and still receive price support if they agree not to harvest the four lower leaves of each stalk, exclusive of the plant bed leaves. The 110 percent poundage quota will not be increased.

Growers wishing to participate in this particular part of the program must sign an agreement at the ASCS office at the time they designate warehouses during the designation period (March 6 - April 7). It is not mandatory that growers enter into this agreement, however growers that do not enter into the agreement will receive price support only if they limit their planting to 100 percent of their allotment.

A farm visit will be made to each farm for which an agreement is signed. This farm visit is to assure that provisions of the agreement are being carried out. Each grower that enters into the agreement will be charged a fee to cover the farm visit.

Normal Crop Acreage Notice [ASCS-476] - Farmers that have a normal crop acreage on their farm based on 1977 plantings should have received this notice. I ask that you pay strict attention to this notice in that the information contained therein will play an important role in the 1978 set-aside program. Farmers should remember that the yields established for various commodities are "Average Yields" thus taking into account good as well as poor crop years.

1978 Set-Aside Program - The signup for the 1978 set-aside program is now going on and it will run until May 1. Farmers that participate need to set aside one acre for every ten acres of feed grain planted for harvest and two acres for every ten acres of wheat planted for harvest in 1978.

The program is voluntary, with no payments made for set-aside acreage; however farmers participating will be eligible for commodity loans, deficiency payments and disaster payments.

1978 ACP - The County Committee met this week at the ASCS office. One of the items on the agenda was to review 1978 ACP applications on file ready for review. Farmers whose applications were reviewed should receive notice very soon.

ACHS DRAMA CLUB COMPETES IN REGIONAL FESTIVAL

The cast and crew of the one-act play of Appomattox County High School is preparing to go to Tunstall High School to participate in the Region III Drama Festival. This group became eligible for this honor when they placed first in the Seminole District Festival on March 6.

The District Festival was held at Appomattox County High School. Plays from Appomattox, Rustburg, Brookville, Amherst, Liberty, and Nelson were viewed and judged throughout the day by Mr. Dudley Sauve, director at Buckingham High School, Southside Virginia Community College and Hampden-Sydney.

Appomattox presented "The Unknown Soldier" by Warren Frost as their festival entry. The cast included Walker Covington, Merry Wright, Tamara Nash, Molly Handy, Darrell Puckett and David Eye, shown in above photo. Drama sponsor, Ms. Joyce Sweet, served as director of the play. Appomattox and Brookville were the only two entries to receive Superior ratings which allow them to attend the Regional Play Festival representing our district.

Out of the two superior-rated plays, the highest rated play was presented a trophy by Mr. Don Armentrout, principal at ACHS. The trophy this year was awarded to Appomattox.

Congratulations, ACHS Drama Club, and good luck!

THE "BLUEBIRD OF HAPPINESS" COULD COME TO YOU

The "Bluebird of Happiness" is not a myth after all!It is a real live bird, a little larger than a sparrow, with a bright blue back, a reddish breast, and an alluring voice. Bluebirds are perhaps the best loved of all American birds and are mentioned more often than any other bird in our poetry and the lyrics of our songs. Unfortunately, however, bluebirds have become quite scarce throughout their range across the United States in recent years, largely because of an acute shortage of the natural tree cavities that they need for nesting, and because of severe competition from foreign birds.

The Audubon Naturalist Society and the Maryland Ornithological Society are trying to bring the bluebirds back by encouraging people to supply them with nesting boxes that they can use in place of the scarce natural cavities. The plan is working. More than 3,000 young bluebirds were raised last year in nesting boxes set out by Maryland residents. And these beautiful birds indeed brought happiness to the many kind people who supplied them with places to build their nests.

More help is needed. Anyone who owns or has access to reasonably open property in rural areas or small towns or on the outermost fringes of larger towns has a good chance of attracting these lovely birds. Nesting boxes should be set out very early in the season, preferably during February.

Complete instructions for making and setting out simple inexpensive bluebird nesting boxes can be obtained by sending 25c and a stamped, addressed long envelope to Larry Zeleny, MOS Bluebird Committee, 4312 Van Buren St., Hyattsville, Md. 20782.
